decided to curtail the complimentary admission list to include only a limited number of the press. When the tracks open in the Metropolitan district this year, club members, owners, Jockeys and trainers will have to pay admission. It is also announced that owners must provide stable hands with tickets which have been purchased.

By taking this action the Jockey club officials hope to materially increase the revenues. Since betting was prohibited at the tracks there have been frequent days when the free admissions, exceeded the paid. The tracks were operated at a loss and by compelling the owners, trainers, jockeys and club members to pay admission and by decreasing the sizes of the purses offered, the stewards expect to make a better showing the coming season. nake a better showing the coming sea-

M'AULIFFE'S TAXICAB BREAKS A RECORD

New York. April 26.—An illustration of the remarkable energy of taximeters on New York taxicabs was given last night in the arrest at Coney Island of "Jack" McAuliffe, the former champion puglist, who said that he had engaged the taxicab at 42d street and Broadway for a spin to the resort. The taximeter showed that McAulifee owed \$32.50 and it was computed that by the legal fare this would puted that by the legal fare this would represent 75 miles of travel. The chauf-feur insisted on collecting, McAuliffe re-fused to pay and was locked up.

REMOVAL NOTICE.

HEALS

S. S. S. heals Sores and Ulcers in the very simplest way. It just goes right down into the blood and removes the cause, and the place is bound to heal because the impurities and morbid matters which have been the means of keeping the ulcer open are no longer absorbed from the blood. External applications of salves, lotions, plasters, etc., can never produce a cure because they do not reach the source of the trouble. At best they can only aliay pain or reduce inflammation; such treatment is working on symptoms and not reaching the cause. Every nutritive corpuscle in the blood is weakened or infected, they cannot nourish the fibrous tissue around the place, but instead they constantly discharge into the flesh around the the place, but instead they constantly discharge into the flesh around the sore a quantity of impure, germ-laden matter which gradually eats into the surrounding healthy tissue and causes the ulcer to enlarge.
